I left you a voice mail. We are now heading in the right direction. Levels have dropped and are flushing the system. The National Guard is flying samples to various labs to help in the analysis.

Hello, [Ex. 6 - Personal Privacy] I just spoke with [Ex. 6 - Personal Privacy], and he suggested I speak with you. I saw the request for aid (mobile lab capability) that went out through the WARN, and have a question regarding the method cited. [Ex. 6 - Personal Privacy] explained that it appears you may not be looking for assistance from other utilities at this point, after all, as the National Guard will be transporting samples. But I wanted to check in with you. Please give me a call ASAP. My office number (215-814-5757) will ring through to my cell. Thank you.--Vicky
